Are the Classes Safe?

The average ratio is only 10 students to one instructor. Our Children's curriculum has been designed to accommodate ages 5 and up. This allows children to successfully learn and perform their moves so that they will feel good about themselves. Our curriculum is challenging but never too difficult. And all the classes are highly supervised by our instructors

Will my child have fun?

We believe that motivation, excitement and fun are the essential tools needed to increase learning and performance of our students. Martial Arts is and always will be good clean fun for kids. We offer various school events that assist in teaching children how to get along better with others in social situations as well as class. Learning creates a spirit of teamwork and a sense of belonging in every child that attends our classes.

Will my child learn to be abusive?

Every child is taught Respect for themselves and others, along with manners and values to support healthy decisions when dealing with others, Karate is taught as a self defense only and to always avoid violent or malicious behavior. We believe that when children's aggression is properly channeled and supported by Our code of conduct it allows for children to always put their best foot forward while dealing with emotions such as anger, disappointment, or aggravation.
